User Charge System Review Comments

The purpose of a User Charge System (UCS) is to generate revenues from each user class commensurate with the operation, maintenance and replacement (O, M & R) costs incurred by the Sanitary District to provide such users with wastewater collection services. A user Charge System is comprised of two elements: the legislative enactments (ordinances) and the engineering/accounting data necessary to demonstrate the proportionality of the User Charge System using a cost-rate-revenue relationship.

Following is the information pertaining to the User Charge System of the SOUTH LYONS TOWNSHIP SANITARY DISTRICT:

1. Number of users by class:

Residential:	2,785
Commercial	142
Industrial	47
Institutional/Govt.	8

2. Billable flow and loading by user class:

THE SOUTH LYONS TOWNSHIP SANITARY DISTRICT IS A COLLECTION AGENCY FOR THE METROPOLITAN WATER RECLAMATION DISTRICT OF GREATER CHICAGO. WE DO NOT TREAT EFFLUENT; THEREFORE NO B.O.D. OR S.S. IS SHOWN:
